DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Although the Prior Art teaches capacitive type pressure sensors that include nickel layers, it does not fairly teach or suggest a capacitive type pressure sensor having a nickel protective layer placed in the manner claimed, nor a capacitive type pressure sensor made by the method claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record on the attached PTO Form 892, but not relied upon is considered pertinent to applicant's disclosure.
